4. Elina Alyeksyeyeva, university student

Prague 7

„The conversation course takes place in a small group and it is very convenient for improving communication skills. There is also an opportunity to study online, which is very convenient if there is no time to go to classes. The course is carried out in an easy, pleasant and funny manner, the teacher finds an approach to each student. Most of all I liked that in the group it was easy to relax, loosen up and get rid of the shyness of speaking. I can recommend this school and a conversation course with Rob. "

15. Aneta Šírková

"I have experience with online teaching with the Britannika language school, but I am extremely satisfied. I chose a Russian course with a Tatsiana teacher, thanks to whose approach I remember a lot and mainly do not forget the curriculum, I am always looking forward to the lessons. I also very much appreciate the helpful approach of Mrs. Inny Fridrikova and the smooth (even fast) communication with her. Overall, I have nothing to complain about. "

"I took 2 English language courses in Britannica, my English level is advanced B2. I was satisfied with the teaching, although due to coronavirus-related measures, most of the teaching took place online. At first I was afraid of it, but I must say that the distance teaching was also good. During the first course, I was lucky that there were only 5 people in the group, so I felt that teaching was more beneficial for me than in the second course with more people. Teacher Rob Kovitz is a great teacher and person. He is enthusiastic about teaching and it can be seen that he enjoys it, I have always been looking forward to his lessons. Based on my experience, I would recommend Britannica further. "

25. Iva Walterova, student / assistant pedagogue at elementary school

"At school, I really liked being helpful in choosing a course, or proposing another course, if the given one did not open. All staff were very helpful. I would recommend the school mainly because of the possibility to choose a native speaker. "

Rated 4.4.2021 from IP: 90.178.13.xxx (unique IP address among all ratings)

26. Honza Kovanda, Programmer

Prague

"I chose the school because of the positive references on the Internet. I have already completed 4 English courses at this school and now I have signed up for another, because my English is really improving significantly. I appreciate the human and professional approach of both Mrs. Fridriková, who runs the school, and the lecturers. Whenever I needed to deal with the school, everything went quickly and well. "

"I would not hesitate to recommend the Britannika language school to anyone who wants to learn languages in a fun way. The management of the school is very flexible, I was satisfied with the continuation of teaching at a specific time and with entering the course during the current semester. There is always a great atmosphere at school and there are also fun lessons when teaching online. "

30. Kateřina Hošíková

Prague 8

"I chose the school based on the reviews and I definitely did not make a mistake. I went to conversations and it helped me improve to communicate and not be afraid. Another great advantage is that the teacher's English was his native language, so it forces one to communicate and express oneself only in English. I recommend the school to everyone who wants to improve their speaking level and be more confident. "

"I am personally very pleased with the British school. I appreciate the helpful and constructive approach, both in choosing a course (since a friend gave me my course, I was allowed to choose a language that best suited my needs) and adjusting the level of teaching (after the first lesson I was also able to join the group, with which we sat better) and in the matter of a flexible transition to distance learning after the closure of schools in mid-October. Although I have visited the school only a few times in person, I like its location near the metro station in the city center, and I was also impressed by its premises. I am also very satisfied with the teaching - an important criterion in choosing a more advanced English course was the opportunity for me to study under the guidance of a native speaker; I always look forward to the lesson and during the semester I noticeably refreshed my English in spoken speech. I would definitely recommend the school to my friends and I will continue to study on my own in the next semester (given the current situation, I am glad that I was able to choose a new form of teaching). "The school suited me, the main plus was definitely the skillful lecturer, location and possibilities of morning courses. As a small reminder, I would mention a bit of confusion when enrolling in a continuing course and maybe a faster pace in a course for complete beginners, but it's individual. "

Rated 9.8.2020 from IP: 194.228.11.xxx (unique IP address among all ratings)

56. Anežka Poltáková

"I like the smallest number of students at school. The lecturer takes care of each of us individually, knows who is missing the most often, and then tries to formulate the questions so that we are all aware of our mistakes. We will be able to do a lot in 90 minutes, and even if we don't want to, we will learn a lot from the language, because the teacher still speaks Spanish to us and uses her hands and feet to understand each other. I only know my teacher Linet, who is a sunshine, she is very funny, nice and you can see that she enjoys her job. With other lecturers, we only meet in the hallway, but they also seem very warm and kind to me. I'm really happy that I enrolled in this language school, mainly because of the teacher I keep going, we can relax there, have fun and Linet can really motivate us to learn and talk. "

"Amazing, as our teacher Linet would say. I was really happy with what the British offered me. First I arranged a group course, then I decided that more individual lessons would benefit me more. There was not a single problem with the solution, I was even offered a discount. I really recommend this language, you will get better! "

"Great competition and low quality, that's the way it is with the Prague language courses. I have already visited the third and only in Britannica did I really learn something. A good lecturer was the basis - Robert taught me and I must say he was good. For example, he did not cancel an hour, as happened to me in other primary schools. I really moved on. "

"I chose Britannica for a number of reasons and I am satisfied, I am already going to the second series of courses. Both of my current lecturers are fine, everything runs smoothly administratively. There were ten people in the first course alone, and that was a lot, and half of them didn't match the level, which was quite delayed. "

I will no longer be a great Englishman, but I wanted to at least have a conversation with the hotel reception and restaurants on holiday. Thanks to your school, I succeeded. I was in Mauritius and communicated much better than in the past. Many thanks to the lecturer and your study department. "

They even called the next day, if it didn't suit me another day, that they were opening a second course of the same level. Everything worked out and the teacher was really good. When I compare it to my optional English at university, it was like heaven and bagpipes. I can highly recommend this school. "

"I like that the school is right in the center near the IPPavlova metro station. I think the price of the course is just for the quality of the lessons I received. Great is also the room where they learn, there are comfortable chairs and we all sit close to each other almost in a circle, so we can hear very well. So far I have met two Spanish teachers (Linet and Ignacio) and they are great. Sometimes there is a bit of a problem with the organization of the course and finding out which course to choose or whether the capacity will be filled and the course will take place, but it is possible to agree on a change. I definitely recommend the school overall "

After transferring to the B1-B2 group, on the other hand, I found myself among people with B2, some even C1. A bit of a paradox. However, these lessons suited me in every way. I appreciate the teacher Katarína very positively, who is an incredibly positive and nice person. The lessons were very much based on speaking, which at least was necessary for me. I can recommend the school, I will be happy to return here in the future :) Petr "

"My stay in Malta took place in November 2019. I had a Berlitz school and I can highly recommend it. It was obvious that the teachers wanted to explain to us as much as possible this week. The group was small - 3-4 people, which was great. I had room for questions and subsequent answers. The family where I lived was nice, we talked to them for a long time after dinner in English - great practice. In a few days I started to apply new knowledge in practice. Malta is a beautiful and small island. Every day after school I traveled and discovered new places. Thank you to the language school Britannika and Mrs. Fridriková for the great organization of my stay! "

"I am extremely satisfied with the Britannika language school. I really appreciate teaching in small groups (from 3 people), where the individual approach to students is very obvious. Other advantages, in addition to the favorable price of the courses and the well-accessible location of the school, are the friendly approach of the lecturers and the friendly atmosphere in all the courses I had the opportunity to attend. Teaching at a very good level, suitable for both beginners and advanced. It is also beneficial that a native speaker works at the school. I tried an advanced conversation course in English with a Lyndsay teacher, which is a fun form of discussion on interesting topics. But most of all, I was excited about the Spanish course for beginners. I started with zero knowledge of Spanish and after two months of courses I am able to understand the basic conversational situations and rules of Spanish grammar. Lecturer Linet is a very friendly, sympathetic and above all excellent teacher, she manages to explain even more complex grammar very clearly so that it is understandable for every student. I recommend the Britannika language school to all ten! Thank you."

"Spanish - Linet Casanova - Beginners When it comes to teaching, there's nothing I can say. Linet always helped all the students and patiently explained everything. I think it would help if the school helped her develop English so that she could explain the material even better. At the same time, I appreciate the flexible approach of both Linet and the school in the case of replacement of missed classes. The only thing I would recommend (I don't know if it was written somewhere or not) some students were surprised that the lessons are in English. (If you did not inform them, I recommend that you do not lose students unnecessarily next time. Otherwise, I must say that there was a friendly atmosphere during the course and also fun, which I appreciate. "

"I am very satisfied with the course and with the teacher Petra. I started going to English because of the need for work. It was never my hobby, rather I always considered it a necessary evil. However, I must say that I began to enjoy it. The way Peter explains this is simple for me, at the same time comprehensible and understandable. I perceive her patience and willingness to explain. In addition, it fits me humanly. And in combination with my intention to move in the language, and also in combination with the atmosphere, which I perceive as pleasant in the group as a whole, I probably have stepped on a new horse :-) I definitely want to continue! "Teaching Italian in Britannica pleasantly surprised me (I had a bad experience with another language). The advantage for a complete beginner like me is that Britannica's lecturers are Italians who speak Czech well. In August, I went to see Professor Robert and now to Susann. Both are great. Because they speak Czech well, they point out the differences between the two languages and this helps to understand various grammatical phenomena in Italian. With every word that has a double consonant (and that there are many Italians), I always remember Professor Robert. He explained to us how to correctly say words with a double consonant: we seem to jump around, stop a little, and say a quick double consonant quickly. Similarly, the lessons with Susann are varied. The individual teaching activities take turns, and most importantly, Susann makes sure to communicate with each other even with a small vocabulary. There is a pleasant atmosphere in the class. In addition, Italian courses are cheaper than in other languages ... That's why I would recommend Italian courses in Britannica to everyone, especially beginners. Vera "

"I was extremely satisfied with the school in Malta. Together with my brother, I completed a two-week course in the 'upper intermediate' group, to which we were assigned on the basis of an entrance test. If I had to name the three biggest positives of the school, I would definitely mention the friendly approach of all staff and "our" teachers, a pleasant class atmosphere, as well as a very good location. It was close both from the host family and to the shop, where you could get a snack during the break. The atmosphere was very relaxed. No one tried a classic school drill, it was obvious that the teachers remember that it is a holiday and therefore the lessons took place in a pleasant atmosphere. An hour and a half hour has always been a combination of several 'branches' of English - something from grammar to reading, writing and, of course, conversation. I would recommend the school without hesitation. "

"I was very satisfied with this language school, the teacher Sabina had a great professional approach and I can say that her lessons gave me more than learning a language at school. The big positive is that the teaching was focused on speaking a specific language and therefore I was able to get to a higher level in a relatively short time. Overall, the school made a good impression on me and I highly recommend it."

"I like transport accessibility, the price of courses and the form of teaching at school the most. The entrance to the building is a bit worse, there is no space or some hooks for storing outerwear. There is nowhere to put it down or hang it, the chairs don't allow it. At sub-zero temperatures, it's colder in the classroom. Atmosphere at school relaxed. "I can definitely recommend the language school. Good accessibility of the school, very good communication, I rate the lecturer as excellent. The only complaint from me is the number of students in the group, a total of 9 people joined my course (the limit was 10), which can be too much. I recommend slightly reducing it to a maximum of 7 students, for example, even at the price of a slightly higher course price, and everyone will be satisfied. I plan to continue attending the school. "Good day. I have only been at the Britannika Language School since the autumn of 2016 under the guidance of teacher Alžběta Hararová. This is a course for complete beginners of the German language. The teacher is always very well prepared, very helpful and I very much appreciate that she tirelessly, despite the advanced time of day and previous courses she has in other languages, answers all questions. The atmosphere is very open and friendly. Nevertheless, it does not deviate from the curriculum. Thanks to her, German seems very logical to me. At the same time, I appreciate that we are not overwhelmed by words that we do not have to know about the topic yet. So far, the school has satisfied me with various requirements. In short, I am very satisfied and I would definitely recommend the British school to anyone who is interested in spending money meaningfully. "

"Hello, a few days ago I returned from a language stay at the Berlitz School in Malta, where I really liked it. Our lecturers (native speakers) and the young lady at the reception were very nice and willing to explain or advise anything. There were ten of us in the class (from different parts of the world), we discussed different topics every day. We learned grammar, but we also talked a lot. If by chance someone didn't know a word, the lecturer immediately explained it and made sure we all understood. Thanks to that, I learned a lot about Malta, but also about other countries and their customs ... There are several restaurants, cafes and a supermarket not far from the school, so there was plenty to choose from. I lived with a host family, we went to school on foot (it was only 15 minutes). The family was nice, nice people. From them I got several types of places to go on a trip and how to get there. It was beautiful in Malta all the time, so I managed to make a lot of trips. I saw, for example, the capital of Valletta, Marsaxlokk - where there are fish markets every Sunday. I also saw the Blue Lagoon, the Blue Grotto and the Hagar Qim temples. It was an amazing experience for me that I can only recommend! "

"In Britain, one had to learn grammar - with little knowledge of vocabulary. I will not continue to study Spanish with Britain because I will be outside Prague. I want to continue with a textbook for self-study - as I found out, it is possible to establish without any problems, so studying with Britain was very good. The atmosphere among the students was also good, lecturer Damian was nice. I definitely recommend Britain. "

"I attend Spanish language courses at the Britannika language school and I can only praise - the teacher Marta is pleasant and, most importantly, always in a positive mood. I am not afraid to communicate in class, we are always praised for the effort, even if everything is not completely correct, so the repairs will be discussed in complete comfort and the correct shapes will be explained. Marta has prepared other materials, various crossword puzzles, games, texts about culture, so the lessons are interesting and colorful. "

"Hello, I can warmly recommend the Britannika language school mainly thanks to the Italian course with the skilful teacher Jana, which I attended. Her classes are very educational, interesting and funny. He willingly explains everything and, thanks to homework, motivates himself. I will continue in such a course and I believe that thanks to such courses, this school will be a great success. Thank you."

"I chose Britannika to start studying Spanish because, as one of the few, she has morning courses once a week, it's a pity that they don't last longer (eg two two hours). They positively evaluate the existence of 3 semesters a year, ie no unnecessary breaks in the study. Not only in languages, he is always a key teacher. They need to know what they are teaching, to be able to teach it and to be able to inspire students. Our teacher Marta has these qualities - she is pleasant, she conveys not only knowledge but also a good mood, I like to go to her classes. In my opinion, it is correctly assumed that a few percent of students learn a language at school, but a very percentage of students have to work on their own. Not everyone will understand this and the brisk pace of teaching may not catch up and eventually stop coming. In my opinion, this was the story of our autumn course - out of about 9 students, only half of us finished. However, such a sieve is useful. All that was left were students with real interest and willingness to work on themselves. We are now moving on and according to the first feelings from the first hour of the follow-up course, a wonderful six-month period awaits us. I am very satisfied with the communication with the school. I highly recommend Britannik and Marta to anyone who is serious about Spanish. "

"I was most comfortable with my teacher Sabina, who taught us beginner German. She taught very professionally and yet amusingly and definitely not a superior, as some teachers do. She explained very well, repeated and simply taught well. It was thanks to her that I decided to continue. Otherwise, it also suited me that there were not many of us students. That we received materials. The time and length of teaching suited me. I was completely satisfied and highly recommend it. "

"I appreciate the friendly atmosphere that prevailed during the lessons. First, I attended a summer conversation course with Nikolleta. This course did not meet what I expected. The conversation was led more by the teacher than by the students about the lecturer's private issues. When replacing one lesson in class with teacher Petra, I was pleasantly surprised and therefore I decided to continue, in another course. The school has a pleasant environment suitable for teaching. They also evaluate positively the number of students in the study group and the lending of textbooks during teaching. I like to recommend this school to my friends, especially thanks to the great experience with the teacher Petra. "

"I highly recommend the Britannik language school. I have been attending Italian courses with Jana since September 2015 and I am very satisfied with her. Jana is great! I always learn something new and I also have a good time there. We never get bored there! It focuses mainly on conversation and overcoming shyness from speaking. He explains grammar in an understandable and entertaining way, helping with challenging topics. He devotes the same time to all students in the group. And I also really appreciate that the Britannika language school is in the center of Prague, it is easily accessible. "

"The school premises are very simply furnished, it is an apartment in a house with three classrooms. In summer, the location of a busy street is a slight disadvantage, which can disturb the hour. I attended an Italian course and what I think highlights the most is the absolutely great teacher Jana, with whom it was a pleasure to go to class. The best teacher I've ever had. I recommend it to anyone who wants to learn Italian. She managed to combine grammar and conversation (more emphasis was placed on it) so that we enjoyed it. "

"I am completely satisfied with the Britannika language school and I can recommend it to all potential applicants. I was probably the first to be convinced by the offer to try one lesson completely free of charge and only then to decide whether to choose this school, course or lecturer. All other communication with the school was in the same, very personal and accommodating spirit. Another great advantage of this school is the possibility to borrow a textbook and buy a workbook, which contains various exercises from individual lessons in the textbook. So if during the course that for some reason I can not attend the class in person, I do not lose contact, I can discuss the substance at home and also practice it. The atmosphere at the school is always very pleasant, thanks to all the lecturers who move there. It is more of a smaller school, but it perfectly suits my requirements. In the case of equipment, it does not matter. During the lesson we always get materials for reading and writing. Most of the lessons are supplemented by a listening part, whether in the form of a watched video or listening to an audio interview. "

"JŠ Britannika is great! I go here for business English to Robert and German to Miss Sabina. Both are great! The lessons are varied and take place in a pleasant friendly atmosphere, sometimes we even laugh. The groups are small, so we have the opportunity to talk a lot. Various teaching methods, supplementary materials, listening and videos, games and competitions are used - just about anything that can diversify the lesson and move our knowledge without the need for a lot of drilling. Homework is not forgotten either. :) In the conversation we get to know each other more and the lessons gradually become a meeting with acquaintances and friends. At the same time, by the way, the ability to communicate in a foreign language improves. Another advantage, which is not usual, is the possibility to borrow a textbook for the duration of the course for a minimal fee. I don't have to buy other textbooks, which then remain useless at home. I like this language school - it is proof that quality teaching does not have to be expensive. And if you like learning languages and don't know this school yet, be sure to call the language school's office and come see the real lesson and see for yourself! "
